I just wanted to point out that many girls also go to bars and clubs to hunt or get hunted as well, but for this episode, these girls had a special mission to get food for poor Rita and Donna stuck in the barracks.

Gate 2 Street refers to the area right outside of Kadena Air Base Gate 2, which has a lot of stores, bars and clubs. Unfortunately over the years, a lot of businesses closed down and the area lost some of its vigor, but Okinawa City built a new multiplex, Koza Music Town, at the major intersection to try to revive the district.

Japanese taxis have automatic doors, so don't get hit by it when you board. (^_^;

Liberty = Time off/permission to leave the barracks/base. Shortened form is "libo."

Boot = Marines fresh out of boot camp and new to the unit. Can also be used to describe Marines who haven't deployed yet.
